

# Truxton Academy Charter School

## ENRICHMENT PROGRAM PERMISSION SLIP

At Truxton Academy Charter School, we believe that learning is doing and in that spirit we try to embrace our surrounding community to enhance the learning experience. We are excited to celebrate the upcoming Solar Eclipse on April 8, 2024, a "once in a lifetime" phenomenon happening right here in Central New York. We would like to take this opportunity to share this amazing experience with our entire Truxton Academy Family & Community.

Many districts in the CNY area are closing or going to a half day of school. Truxton Academy will be ending our instructional day at 12:45 pm. An optional afternoon enrichment program is available for those with transportation from 12:45 pm to 3:45 pm. As always, if you live in a district that is closed or operating on a half day schedule and you cannot provide other transportation to and from school, your student's absence will be excused.

For anyone wanting to join us, we will be hosting an afternoon of fun while we wait for the disappearance of the sun! Dismissal will begin at 12:45 pm for students without transportation that are not staying for the enrichment program. Students will need to be picked up by 1:00 pm. Students can stay and families are welcome to join us for the afternoon. Please arrive no later than 2:00 pm and plan for student pick up or family departure by 3:45 pm. We are looking to avoid any travel during the main event.

All family members are welcome. We have solar eclipse viewing glasses available for those who join us. We will be providing a brown bag lunch option for students in attendance during the day. Families are welcome to pack a picnic or bring favorite drinks and snacks for the afternoon.

If you would like your child to participate but cannot join us, they will be considered part of our extended day enrichment program and will need this form completed and returned no later than Thursday, April 4, 2024.

I hereby give permission for my child, \_\_\_\_\_, to participate in the Solar Eclipse Enrichment Program on April 8, 2024.

Parent/Guardian's Name (please print): \_\_\_\_\_

Parent/Guardian's Signature: \_\_\_\_\_

***Please note a separate form is required for each child.***
